

# Subscription Renewal Form

As a former subscriber to **Western Birds** you know what it offers in way of maps, up-to-date information, and GPS coordinates for guzzler, spring, and windmill locations. You know the new digital issues now come with Google Earth files to make transferring location data to your computer, phone or GPS unit a simple process. You know is as valuable as a hunting partner who shares his spots. A great hunting partner who wants to help you get into birds, stay abreast of valuable information on bird hunting, and keeps you up-to-date on news that affects our sport.

I recently did some research on the newsletter: Since October, 1996, the newsletter has given directions and coordinates to over 800 different hunting locations throughout the southern half of California, along with a few spots in Arizona, Nevada, and southern Utah.

Your subscription recently expired. Was this an oversight? If you want to resubscribe you can simply fill out this form and e-mail or snail mail it back. However, the easiest way to renew is to simply call 909-887-3444 with a credit card number and we can do the renewal quickly over the phone.
